

System Dynamics Society

We are a membership-based non-profit organization dedicated to spreading systems thinking and System Dynamics globally

Our vision is that System Dynamics will transform society by improving decision-making, thus helping to effectively tackle some of the most pressing social issues of our time, such as climate change, population health, equity, supply chain shortages, pandemic preparedness, and sustainability.

What is System Dynamics?

A computer-aided approach to strategy and policy design. It uses **simulation modeling** based on feedback system theory often combined with participatory community-based methods.

What do we offer?

We offer your organization an opportunity to support the Society's mission and enhance your **brand recognition and visibility** among the diverse global System Dynamics community through our **email marketing campaigns, Google Ads grant, website, conferences, seminars, and social media.**

Our Purpose

"System Dynamics provides insights on some of the most complex and challenging problems facing society today and helps to identify high leverage points for tackling these issues. The Society encourages the development and use of System Dynamics around the world by bringing together researchers, educators, students, consultants and practitioners to keep abreast of current developments and to build on each other's work."

Shayne Gary, 2022 Society President

2023 Sponsorship Prospectus

Sponsorship helps us serve our members and grow the System Dynamics field worldwide, while also providing your organization with long-term exposure to the community.

2023 International System Dynamics Conference

Adapting in the Face of Change

Chicago, USA

July 23-27, 2023

Letter from our President

Dear valued Society supporters,

We couldn't have accomplished all that we have without your generous sponsorship over the years. Thanks to our sponsors contributions, we've been able to underwrite conference attendance, support membership growth, and foster a global community of System Dynamics scholars and practitioners.

We're excited to announce a new recognition opportunity for our "[Founding Sponsors](#)" who have made cumulative donations of over \$100,000 by 2027. You can find more information on our website about [Planned Giving](#) and charitable donations that will unlock this special opportunity to support our mission.

Our prospectus showcases all of the Society's current sponsorship opportunities in one convenient place. We invite you to explore how partnering with us can help you reach your target audience and increase your engagement with the System Dynamics community. We are committed to working closely with you to develop a strong partnership and ensure that your sponsorship delivers meaningful value to your organization. If you don't see an opportunity that fits your needs, please let us know. We'll work with you to create a custom sponsorship package that effectively conveys your message to the global System Dynamics community.

We urge you to review this year's sponsorship opportunities and make your pledge today. Join us in advancing the field of System Dynamics and making a lasting impact on our community.

Sincerely, *Bradley*

Bradley Morrison

2023 Society President
